Digital skills: succeeding in a digital world

<https://www.open.edu/openlearn/digital-computing/digital-skills-succeeding-digital-world/content-section-overview>

Course summary

This free course, Digital skills: succeeding in a digital world, will develop your confidence and skills for life online, whether study, work or everyday life. It explores a range of digital skills and practices, including digital identity, digital well-being, staying safe and legal, finding and using information and online tools, and dealing with information overload. The importance of developing a critical approach to life online is emphasised throughout, whether consuming or creating information. You'll be encouraged to reflect on your own situation and to apply what you learn to real-life scenarios, using a digital skills plan to keep a record of progress. This statement serves as proof of the successful completion of a course accredited by the CPD Standards Office. You have earned 24 CPD points through your participation in this course.

Learning outcomes

By completing this course, the learner should be able to:

- understand and be confident in online identity
- choose and use the appropriate online tool for the task in hand
- use technology confidently and critically to achieve study, work and life goals
- reflect proactively on digital confidence, and identify steps for further development.
